	Section /Product Name	Product Description	Usage
1	FASTENERS <ul style="list-style-type: none"> • #12 • #12 Hex Head • #14 • #15 • K-Fast™ 	#3 Phillips drive, 13 tpi, drill point 1/4" hex drive, 13 tpi, drill point #3 Phillips drive, 10 tpi, drill point #3 Phillips drive, 13 tpi, drill point #3 Phillips drive, 13 tpi, drill point	<ul style="list-style-type: none"> • For insulation attachment to wood and steel roof decks: FM and Dade Co. Approved • For insulation and membrane attachment to wood, steel and structural concrete roof decks: FM and Dade Co. Approved • For insulation and membrane attachment to wood, steel and structural concrete roof decks: FM and Dade Co. Approved • For membrane attachment to wood and steel roof deck: FM and Dade Co. Approved
2	STRESS PLATES <ul style="list-style-type: none"> • Insulation Plates • Membrane Plates • isofast™ Plates 	2-7/8" hex plate 3" round assemblies 2-3/8" round, 2" round, 3-5/8" round 2-3/4" square, 2-3/8" round	<ul style="list-style-type: none"> • For insulation using Dekfast #12, #12 Hex, #14, #15, Dekspike™, Deklite™, and T.P.R.: FM and Dade Co. Approved • For membrane using #14, #15, K-Fast, Dekspike, Deklite, and T.P.R.: FM and Dade Co. Approved • Stacked insulation and membrane plates used with IF 160 system: FM and Dade Co. Approved
3	ASSEMBLIES <ul style="list-style-type: none"> • Insulation Assemblies • Membrane Assemblies 	#12, #14 & #15 assembled to metal and plastic insulation plates #14 & #15 assembled to metal and nylon membrane plates	<ul style="list-style-type: none"> • For insulation attachment using pre-assembled #12, #14 and #15 fasteners and plates • For membrane attachment using pre-assembled #14 and #15 fasteners and plates
4	BELTED SYSTEMS <ul style="list-style-type: none"> • #12 Belted • #15 Belted • isofast Plates 	#12 Dekfast insulation attachment #15 Dekfast seam attachment Stacked plates for isofast System	<ul style="list-style-type: none"> • For insulation attachment using #12 Dekfast with #3 Phillips drive collated for IF 160 system • For membrane attachment using #15 Dekfast with #3 Phillips drive collated for IF 160 system • Stacked insulation and membrane plates used with IF 160 fastening system
5	LOG HOME FASTENERS <ul style="list-style-type: none"> • Log Screw Max • Log Screw 	#19 hex head, winged, rico point #15 hex head, winged, rico point	<ul style="list-style-type: none"> • For heavy-duty log tie in • For construction of log homes
6	NAIL BOARD FASTENERS <ul style="list-style-type: none"> • Insulation Panel Fasteners 	#14 #3 square drive, rico point	<ul style="list-style-type: none"> • For use in vented and/or composite nailboard applications
7	SPECIALTY PRODUCTS <ul style="list-style-type: none"> • Deklite™ • Dekspike™ • Stainless Dekfast • Purlin Fastener • T.P.R. Peel Rivet • Teleskop • Insulated Panel Fastener • Drill Bits • ZAC® Anchors • Zinc Nailins 	Nylon reinforced fiberglass auger 1/4" mushroom head #14, 13 tpi, drill point #12 #3 square drive, drill point Two piece aluminum magnesium alloy fastener Non-thermal bridging-fastening system #14 #3 square drive, rico point 3/16", 7/32", 1/4" 3/8" AF termination fastener Termination fastener	<ul style="list-style-type: none"> • For lightweight roof decks, concrete, tectum, and gypsum, for insulation and membrane: FM and Dade Co. Approved • For insulation and membrane attachment on structural concrete roof decks: FM and Dade Co. Approved • For insulation and membrane attachment roof covers in a corrosive environment • For retro-fit roofing systems to penetrate heavy-gauge purlin • For insulation and membrane attachment in problematic roof decks • For insulation and membrane attachment in non-thermal bridging applications • Insulated panel fasteners • Carbide tipped bits for structural concrete • For fastening termination bar at wall terminations • For fastening termination bar at wall terminations
8	TERMINATION PRODUCTS <ul style="list-style-type: none"> • Termination and Batten Bars 	.075", .100", .125" thick, 6", 8", 12" OC	<ul style="list-style-type: none"> • For wall termination applications
9	INSTALLATION TOOLS <ul style="list-style-type: none"> • Stealth • isofast 160 	#10, #20, shorty Belted #12's and #15's	<ul style="list-style-type: none"> • For use with pre-assembled products • Automated belted product for attachment of insulation and membrane roof covers
10	COATINGS <ul style="list-style-type: none"> • Senti™ XP Coating 	Grey, blue and black coatings	<ul style="list-style-type: none"> • For ultimate corrosion resistance

Applications

Views

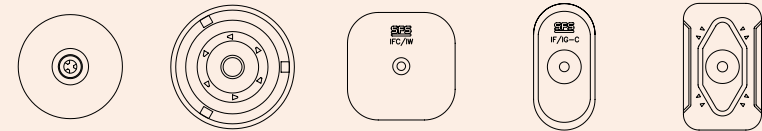

1

- 18, 20, 22 gage metal 2x dimensional lumber
- 18, 20, 22 gage metal deck, plywood and 2x dimensional lumber, structural concrete, concrete plank, hollow core concrete plank
- 18, 20, 22 gage metal deck, plywood and 2x dimensional lumber, structural concrete, concrete plank, hollow core concrete plank
- 18, 20, 22, 24, 26 gage metal deck, plywood and 2x dimensional lumber

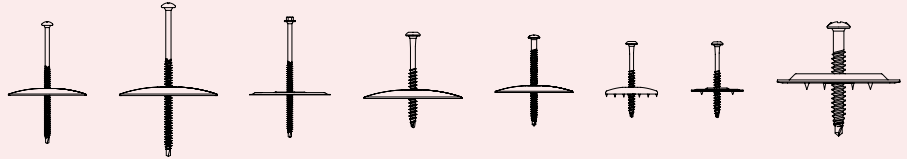

2

- FM approved insulation attachment
- Mechanical attachment for single ply membrane per manufacturer's requirements
- FM approved insulation attachment
- Mechanical attachment for single ply membrane per manufacturer's requirements

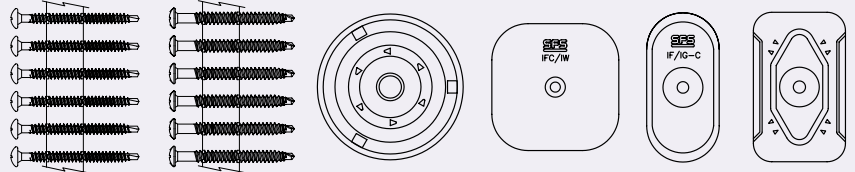

3

- 18, 20, 22 gage metal deck, plywood and 2x dimensional lumber
- Mechanical attachment for single ply membrane per manufacturer's requirements

4

- 18, 20, 22 gage metal deck, plywood and 2x dimensional lumber
- Mechanical attachment for single ply membrane per manufacturer's requirements

5

- For use in the construction of log homes
- For use in the construction of log homes

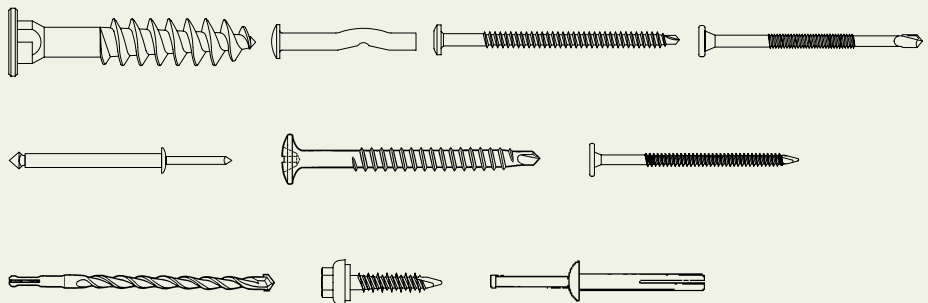

6

- 18, 20, 22 gage metal deck, plywood and 2x dimensional lumber

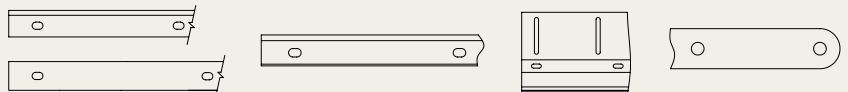

7

- Lightweight insulating concrete, poured gypsum, gypsum plank, tectum
- Structural concrete
- Stainless steel specialty decking
- Up to 1/4" purlin steel
- Fiberglass and light gage steel decking and all problematic deck types
- All listed deck types with thermal bridging concerns 18, 20, 22 gage metal deck.
- 18, 20, 22 gage metal deck, plywood and 2x dimensional lumber
- Structural concrete
- Termination attachment
- Termination attachment

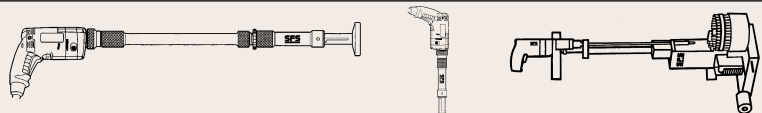

8

- 18, 20, 22 gauge metal decks and roof wall terminations

9

- Tools can be used on all listed applications to ensure uniform installation depth on roofs
