Cartridge and sausage tools.

Albion delivers peak performance at an excellent value.

The re-designed "B" Line competes with the best European and Asian imports and surpasses them with the integration of Albion's legendary quality, state-of-the-art engineering and with the cost savings of an import!

Model B12® —
 10 oz cartridge, double-gripping
 plate technology, adjustable
 wear-compensation device

Compare the "B" Series features with any other gun:

- **Longer dispensing tool life**— Albion's adjustment screw technology means increased life of the gun—as the tool wears you can adjust the screw to remove the wasted motion
- **Increased durability**— Albion's legendary double gripping plates and steel trigger means increased durability; if it's dropped it won't break
- **More user friendly**— Cartridge guns feature a built-in ladder hook pull. Sausage guns accept all Albion ladder hook pull accessories.
- **Increased efficiency**— Albion's improved pump efficiency means you get the job done quicker. Designed so that it takes fewer pumps to empty a sausage, you get more efficient use of hand motion.

See reverse side for features and specifications.

20 oz & 10 oz Sausage Guns— Models B12® S20 & B12® S10 with high-performance drives
