

Products and parts for deck construction

Technical spec. for **Ecospike** No. article 13010

Steel post designed to support light work: fences (< 60 in), post boxes, light signs. A solution which is efficient and economical, which does not require digging or pouring concrete. No more tedious jobs!

Easy to install: Drive in the ground using a drive block and attach a square post to it. Its blades anchor it solidly. Known to be the most resistant in its category.

To be used with 3 ½ in x 3 ½ in square posts

Baked powder coating finish (anticorrosion)

Offers long term protection since the wooden post is above ground level
