**J-Drain**

**INSTALLATION GUIDELINES**

**RETAILING WALL INSTALLATIONS**

**Collection and Discharge** Unroll and install J-Drain SWD-6 OR 12 along footing and attach to wall covering weep holes for uniform collection and discharge to weep holes.

**Attachment Method** On concrete substrates, use mechanical fasteners, i.e., Nailing or powder actuated fasteners. On waterproofing substrates, use construction adhesives that are compatible with the waterproofing membrane.

**Backfilling** Backfill as soon as possible not exceeding 5 - 7 days. Backfill in lifts and compact each lift. Backfill should extend at least 6" over top of panels.

**FOUNDATION WALL INSTALLATIONS**

**Collection and Discharge** Unroll and install J-Drain SWD-6 OR 12 along footing and attach to wall covering weep holes for uniform collection and discharge to weep holes.

**Attachment Method** On concrete substrates, use mechanical fasteners, i.e., Nailing or powder actuated fasteners. On waterproofing substrates, use construction adhesives that are compatible with the waterproofing membrane.

**Backfilling** Backfill as soon as possible not exceeding 5 - 7 days. Backfill in lifts and compact each lift. Backfill should extend at least 6" over top of panels.

**LARGING WALL AND SOIL NAILING INSTALLATIONS**

**Collection and Discharge** Unroll and install J-Drain SWD-6 OR 12 along footing and attach to wall covering weep holes for uniform collection and discharge to weep holes.

**Attachment Method** On wood substrate, attach by nailing to lagging wall. On earth substrates, use anchor pins with washers.

**Fabric Wraps Behind Core**

**Dimples & Filter Fabric Always Faces Soil.**

**Vertical Splicing Detail**

**Horizontal Installations:**

**Unrolling Panels** Starting along edge of horizontal area, unroll panel while folding fabric over edge adjacent to starting edge. On sloped surfaces, unroll in direction of slope. Filter fabric faces top side. Adjacent panels should be unrolled and splices should be performed as shown in Splicing Detail.

**Edges** All factory edges and/or cut edges must be covered with filter fabric to prevent intrusion of cover material (soil, sand, concrete, etc.).

**Exposure** Do not leave exposed to intensive sunlight for extended periods of time (5-7 days).
