

Last Chance Adapter

ME481
Shutoff Poppet

ME480
Full Flow

ME480EX
With Excess Flow

Purpose: To provide a quick way to change from a 20 LB cylinder to a 1 LB disposable cylinder.

Features:

- Available in full flow, integrated excess flow device, and automatic shutoff poppet
- Excess flow* available with .9 or 1.8 Gallons per Minute
- Can be used to connect a small 1 LB propane cylinder to a gas grill or a gas grill directly to the RV gas system

Last Chance Adapter	
Part No.	Description
ME480	1 5/16" M. Acme x 1" 20 Female - No Check
ME480EX	1 5/16" M. Acme x 1" 20 Female - .9 GPM Excess Flow
ME480EX1.8	1 5/16" M. Acme x 1" 20 Female - 1.8 GPM Excess Flow
ME481	1 5/16" M. Acme/F. POL x 1"-20 Female with shutoff poppet

* An excess flow device does not provide a 100% shutoff, a small amount of propane may leak if disconnected.
