Water Repellents
Solutions for Moisture Intrusion
Concrete and masonry surfaces always require protection from the damages of wind-driven rain, freeze-thaw, moisture, and chloride ion intrusion from de-icing salts...it’s just a matter of time. Through our Master Builders Solutions brand, BASF offers high performance water repellents that penetrate the substrate without creating a film on the surface. They maintain the original appearance of the substrate and allow moisture vapor to escape, while sealing and protecting concrete and masonry for years to come.

**Water Repellents**

**Vertical Substrate Applications**

**MasterProtect® H 177 Water Repellent**
A water-based, high-performance, clear, penetrating water repellent sealer developed for dense, vertical surfaces such as hard burnt brick, stucco and natural stone.

**Advantages and Typical Uses**
- Water-based
- Interior or exterior use
- Used on masonry/brick & stucco
- Breathable
- Easy to apply
- Excellent water bead

**MasterProtect H 185 Water Repellent**
A high-performance, water-based water repellent specifically formulated to provide long-term protection for the most challenging split faced light and medium weight CMU/block.

**Advantages and Typical Uses**
- Water-based
- Highest degree of water repellency for lightweight block/CMU
- Breathable
- Easy to apply
- Prevents moisture intrusion
- Excellent water bead

**MasterProtect H 200 20% Silane Sealer**
A water-based, clear, penetrating silane sealer for use on a multitude of surfaces including concrete, brick, stucco and precast concrete.

**Advantages and Typical Uses**
- Water-based
- Horizontal or vertical use
- Used on exposed aggregate
- USDA certified (non-food contact areas)
- Interior or exterior use
- Easy to apply

**MasterProtect H 107 Silane/Siloxane Sealer**
A water-based, cost effective, clear penetrating silane/siloxane sealer developed for use on a multitude of vertical surfaces including poured-in-place concrete, brick, stucco and precast concrete.

**Advantages and Typical Uses**
- Water-based
- Cost effective
- Interior or exterior use
- Breathable
- Easy to apply

**MasterProtect H 440 VT Vertical Water Repellent**
A solvent-based, VOC-compliant, penetrating water repellent designed to protect new and existing vertical concrete and masonry surfaces that are exposed to weathering elements and chloride ions.

**Advantages and Typical Uses**
- No cleaning necessary for ordinary windows or glass
- Does not harm adjacent metal, wood or painted surfaces
- Excellent for cool weather applications
- Prevents moisture intrusion damage
- Prevents freeze-thaw damage
- Breathable
- Greater than 40% active ingredients

**MasterProtect H 1000 Clear, Penetrating Water Repellent**
A 100% silane sealer that penetrates and chemically reacts deep within the pores of concrete to form long-lasting protection to substrates subject to high traffic abrasion such as bridge decks, highway surfaces and parking garages. It will not harm adjacent metal, glass, wood or painted surfaces - which do not require cleaning after application. This is advantageous for concrete or masonry buildings because these surfaces need not be masked prior to application.

**Advantages and Typical Uses**
- Highest degree of water repellency
- Excellent chloride ion protection
- Freeze-thaw protection
- Forms a chemical bond deep within the surface
- Protects new and existing concrete
MasterProtect H 200
20% Silane Sealer
A water-based, clear, penetrating silane sealer for use on a multitude of surfaces including concrete, brick, poured-in-place and precast concrete.

Advantages and Typical Uses
- Horizontal or vertical use
- Water-based
- USDA certified (non-food contact areas)
- Interior or exterior use
- Easy to apply
- Breathable

MasterProtect H 400
40% Silane Sealer
A high-performance, water-based, clear, penetrating silane sealer designed to protect concrete and masonry surfaces that are exposed to weathering and chloride ions.

Advantages and Typical Uses
- Water based
- Ideal for traffic-bearing surfaces
- Superior protection against water penetration
- Interior or exterior use
- Easy to apply
- Breathable

MasterProtect H 440 HZ
Water Repellent for Horizontal Precast, Pre-stressed and poured-in-place Concrete
Solvent-based, VOC-compliant, silane sealer that penetrates deep and chemically reacts with concrete to form a long-lasting water-repellent surface. Ideal for use on horizontal surfaces subject to traffic abrasion.

Advantages and Typical Uses
- Ideal for traffic-bearing surfaces
- Prevents chloride ion intrusion
- Superior protection against water penetration
- Freeze-thaw protection
- Breathable
- Greater than 40% active ingredients
- Excellent for cool weather applications

MasterProtect H 1001
Clear Penetrating Breathable Water and Oil repellent
Designed to protect new and existing concrete surfaces that are exposed to weathering and chloride ions. An oliophobic additive helps prevent stains caused by motor oils, greases and food products.

Advantages and Typical Uses
- Resistant to oil, grease and food stains
- Easy to apply
- Breathable
- Excellent chloride ion protection
- Forms a chemical bond deep within the surface

MasterProtect H 1000
Clear, Penetrating Water Repellent
A 100% silane sealer that penetrates and chemically reacts deep within the pores of concrete to form long-lasting protection to substrates subject to high traffic abrasion such as bridge decks, highway surfaces and parking garages. It will not harm adjacent metal, glass, wood or painted surfaces - which do not require cleaning after application. This is advantageous for concrete or masonry buildings because these surfaces need not be masked prior to application.

Advantages and Typical Uses
- Highest degree of water repellency
- Excellent chloride ion protection
- Freeze-thaw protection
- Forms a chemical bond deep within the surface
- Protects new and existing concrete

Applications
COMMERCIAL, RESIDENTIAL & INSTITUTIONAL BUILDINGS
- Brick Facades
- Concrete Blocks
- Lightweight Blocks
- Architectural Concrete
- Exposed Aggregate
- Conventional Stucco
- Natural Stone
- Concrete Pavers

INFRASTRUCTURES & TRANSPORTATION
- Bridge Decks
- Parking Decks
- Highways
- Stadiums
- Plazas

Technologies
- Silane
- Silane/Siloxane Blend
- Water-based
- Solvent-based
Master Builders Solutions from BASF

The Master Builders Solutions brand brings all of BASF’s expertise together to create chemical solutions for new construction, maintenance, repair and renovation of structures. Master Builders Solutions is built on the experience gained from more than a century in the construction industry.

The know-how and experience of a global community of BASF construction experts form the core of Master Builders Solutions. We combine the right elements from our portfolio to solve your specific construction challenges. We collaborate across areas of expertise and regions and draw on the experience gained from countless construction projects worldwide. We leverage global BASF technologies, as well as our in-depth knowledge of local building needs, to develop innovations that help make you more successful and drive sustainable construction. The comprehensive portfolio under the Master Builders Solutions brand encompasses concrete admixtures, cement additives, chemical solutions for underground construction, waterproofing solutions, sealants, concrete repair and protection solutions, performance grouts and performance flooring solutions.

Master Builders Solutions products from BASF for the Construction Industry:

- **MasterAir®**  
  Solutions for air-entrained concrete  
- **MasterBrace®**  
  Solutions for concrete strengthening  
- **MasterCast®**  
  Solutions for manufactured concrete product industry  
- **MasterCem®**  
  Solutions for cement manufacture  
- **MasterEmaco®**  
  Solutions for concrete repair  
- **MasterFinish®**  
  Solutions for formwork treatment  
- **MasterFlow®**  
  Solutions for precision grouting  
- **MasterFiber®**  
  Comprehensive solutions for fiber reinforced concrete  
- **MasterGlenium®**  
  Solutions for high-performance concrete  
- **MasterInject®**  
  Solutions for concrete injection  
- **MasterKure®**  
  Solutions for concrete curing  
- **MasterLife®**  
  Solutions for enhanced durability  
- **MasterMatrix®**  
  Solutions for workability control  
- **MasterPel®**  
  Solutions for water tight concrete  
- **MasterPolyheed®**  
  Solutions for high-performance concrete  
- **MasterPozzolith®**  
  Solutions for water-reduced concrete  
- **MasterProtect®**  
  Solutions for concrete protection  
- **MasterRheoBuild®**  
  Solutions for super-plasticized concrete  
- **MasterRoc®**  
  Solutions for underground construction  
- **MasterSeal®**  
  Solutions for waterproofing and sealing  
- **MasterSet®**  
  Solutions for retardation control  
- **MasterSure®**  
  Solutions for workability control  
- **MasterTop®**  
  Solutions for industrial and commercial floors  
- **MasterWeld®**  
  Solutions for construction adhesives  
- **Ucrete®**  
  Flooring solutions for harsh environments

LIMITED WARRANTY NOTICE: BASF warrants this product to be free from manufacturing defects and to meet the technical properties on the current Technical Data Guide, if used as directed within shelf life. Satisfactory results depend not only on quality products but also upon many factors beyond our control. BASF MAKES NO OTHER WARRANTY OR GUARANTEE, EXPRESS OR IMPLIED, INCLUDING WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE WITH RESPECT TO ITS PRODUCTS. The sole and exclusive remedy of Purchaser for any claim concerning this product, including but not limited to, claims alleging breach of warranty, negligence, strict liability or otherwise, is shipment to purchaser of product equal to the amount of product that fails to meet this warranty or refund of the original purchase price of product that fails to meet this warranty, at the sole option of BASF. Any claims concerning this product must be received in writing within one (1) year from the date of shipment and any claims not presented within that period are waived by Purchaser. BASF WILL NOT BE RESPONSIBLE FOR ANY SPECIAL, INCIDENTAL, CONSEQUENTIAL (INCLUDING LOST PROFITS) OR PUNITIVE DAMAGES OF ANY KIND.

Purchaser must determine the suitability of the products for the intended use and assumes all risks and liabilities in connection therewith. This information and all further technical advice are based on BASF’s present knowledge and experience. However, BASF assumes no liability for providing such information and advice including the extent to which such information and advice may relate to existing third party intellectual property rights, especially patent rights, nor shall any legal relationship be created by or arise from the provision of such information and advice. BASF reserves the right to make any changes according to technological progress or further developments. The Purchaser of the Product(s) must test the product(s) for suitability for the intended application and purpose before proceeding with a full application of the product(s). Performance of the product described herein should be verified by testing and carried out by qualified experts.
