

OlyBond500[®] Green

INSULATION
ADHESIVE

OlyBond500[®] Green provides all the ease and performance of OlyBond500[®] while satisfying important environmental considerations.

It IS Easy Being Green

*Specify Green today,
for tomorrow.*

- Plant-based formula uses rapidly renewable resources in its composition
- Low VOC; no noxious odors
- Contributes to LEED[®] specified projects
- Carries same FM approvals as OlyBond500
- Environmentally sensitive packaging
- Available for both **Bag-in-Box** and **SpotShot** applications

Not Just Environmentally Friendly—User Friendly, Too

OlyBond500 Green is a dual-component polyurethane adhesive that can be easily applied using our innovative patented PaceCart 2® dispenser or lightweight SpotShot applicator. With a plant-based formula and low VOCs, it is the ideal choice for LEED specified projects.

Uses

OlyBond500 Green can be used to adhere a variety of insulation and cover boards to a wide selection of roof substrates in both new and re-roof applications. It is also an excellent choice for adhering multiple layers of insulation board and cover board. For more details, refer to Technical Data Sheet.

Patented PaceCart 2 and Bag-in-Box Technology!

Application

OlyBond500 Green is dispensed in a semi-liquid band that spreads to several inches while rising ¾–1 inch above the substrate. The insulation/cover board is placed into the adhesive and walked into place. A chemical cure occurs in approximately 4–8 minutes depending on temperature and weather conditions.

Approvals

OlyBond500 Green is approved for use by most roof system manufacturers and is Factory Mutual, Florida Building Code and Miami-Dade approved.
