

IMPORTANT INFORMATION

to keep your PaceCart® dispenser operating smoothly

OlyBond500® and the PaceCart System are a team, designed to work together to help make you more productive on the roof. The PaceCart dispenser is engineered to work exclusively with the Patent Pending OlyBond500 Bag-in-Box to deliver insulation attachment that lasts and lasts. And the system is supported on the roof by OMG Roofing Products, the best in the business.

In order to get the most from your PaceCart dispenser and to continue to receive the rooftop services that make your life easier, make sure that you always use authentic OlyBond adhesives. The chemistry and physical properties of genuine OlyBond500 adhesives are specifically designed to flow smoothly through the PaceCart dispenser and will not create mechanical stress

on drive system components or damage the supply lines.

The use of any chemicals not supplied by OMG may cause damage to the PaceCart hoses and pumps, and should be avoided. OMG cannot control the fillers and solvents supplied by other manufacturers, and will not take responsibility for repairing carts damaged by third party chemicals. OMG has the highest confidence in the quality and performance of its products, and when genuine OlyBond500 adhesives are purchased from authorized OMG distributors, they are supported by the entire OMG Roofing Products Team. With genuine OlyBond500 adhesives, you can be assured of the highest standards of quality and enduring performance.
