

# Sievert GS12000

## Heavy Duty Professional Generator

The GS12000 is designed with the contractors need for performance in mind • It comes standard with a premium 688cc Honda GX630 engine, key activated electric start, a brushless heavy duty alternator with THD of less than 5% and a frame mounted control panel that offers you 120V, 120/240V 30amp and 240V full power 60 amp service • Other standard equipment is an engine protection system, circuit breaker protection, hourmeter, fuel gauge, 15 gallon fuel tank, lifting kit, 12V battery, 4 no-flat wheel dolly kit, CARB + EPA Certified.

- Engine protection system.
- Circuit breaker protection.
- Key activated electric start engine.
- Maximum Output – 12,000 watts
- Continuous Output – 10,800 watts.
- Brushless heavy-duty alternator with THD less than 5%.
- 15 gallon fuel tank runs 9 hours on full load.

GS12000 TECHNICAL SPECIFICATIONS		
Engine: Honda GX 630	Power: 20HP V-Twin Hemi	Total Harmonic Distortions: <5%
Fuel: Unleaded Gasoline	Full Load Run Time = 9 hours	120V Receptacles: (6) 20A (GFCI)
Maximum Output: 12000W	Fuel Tank Capacity: 15 gallons	240V Receptacles:(1) 30A & (1) 60A
Continuous Output: 10,800W	Net Weight: 425 lbs	Generator Warranty: 2 years
Starting System: Electric	Dimensions(LxWxH)40"x27.2"x26.7"	Engine Warranty: 3 years
