

Sievert TI2960 TITANIUM

Turboroofers Field Torch Kit

The NEW TI2960 TITANIUM Turboroofers Torch is 60% lighter in weight compared to standard burners made of brass or steel. TI 2960 is made of high quality TA2 Titanium, a super strong and lightweight metal. This torch offers a fully adjustable pilot flame/main flame torch, with the new Turboroofers handle. It provides the professional roofer with a durable, user-friendly field torch. This NEW kit features a powerful, windstable flame. The handle has dual control knobs for “complete” flame control. Quality one-piece construction. TI2959 available with 26” torch assembly with stand.

Kit Includes:

- 3460-TI 32” titanium torch assembly with stand
- 1525IS 25 ft. hose
- 3062-93 POL Regulator
- 2000S Spark lighter
- POP Packaging

Features:

- 60% lighter in weight
- New ergonomically designed handle.
- New and improved design on the trigger for separate operation of the pilot and main flame able to stand up to the toughest conditions—the new valve improves the shifting between pilot and main flame and the pulsing of the main flame.
- Lightweight, durable and powerful! This is the torch that you’ve been waiting for!
