

TILE BOND Underlayments

June 21, 2005

Following is a list of underlayments which have been tested in the Dow Chemical Company's Crest Hill R&D lab for use with TILE BOND Professional Roofing Adhesive. This list is by no means all-inclusive, and testing is available for products a contractor may wish to use which have not been previously test. Please contact Technical Support at (888) 868-1183 for additional information or products which may not be on this list.

NOTE:

The above list is not inclusive. There are many underlayments on the market, and we have only listed those which we have tested in our Research & Development lab.

Please contact Technical Support Group at (888) 868-1183 if your underlayment is not listed and you wish to arrange a test.
