## AES Raptor TriRex™

Complete Mobile Fall Protection System

No assembly required.  
No bolts, pins or counterweights

Compliant with OSHA Regulation.  
1926.502d

Allows three workers to be tied off while using the TriRex for fall arrest.

Optional Fall Restraint Tie-Off Rings™ provide tie-off points for up to two additional workers.

Provides employees with a required tie-off point.

Distinctive color for tie-off points indicates the difference between worker tie-off and designated hoisting points.

Flat Free Tires Standard.

Engagement Arm Claw Design accommodates most substrates.

Optional Dual Front Brake System.

Allows optional generators, air compressors and job boxes, making the TriRex the most useful tool on the job site.
