Polyether Sealant

Description:

Clear is a high quality moisture curing elastomeric sealant formulated with polyether technology for use in virtually any high visibility sealing application.

Packaging:

10.1 oz tubes
24/case

Shelf Life one year

Features	Benefits
100% solids	Will not shrink
No solvents	No smell / VOC compliant
Transparent	No color matching necessary
Polyether based compound	Will remain flexible in heat or cold
Not flammable	Safe where flammable sealants prohibited

Application:

Surface area shall be sound and cleaned of all debris and contaminants. All loose materials shall be removed prior to application. Surface area can be damp. Do not apply in temperatures below 30° F. Maintain **CLEAR** at room temperature before applying. Cut nozzle to desired width and puncture hole in the inner seal.

Clean up:

Clean all tools and spills with isopropyl alcohol when material is wet.

Caution:

Avoid prolonged contact with skin. Uncured adhesive irritates eyes. In case of contact with eyes, immediately flush with water. Call a physician.

KEEP OUT OF REACH OF CHILDREN**Storage:**

Store in original unopened containers in a cool, dry area. Protect unopened containers from heat and direct sunlight. Elevated temperatures will reduce shelf life.

Limitations and Guidelines:

Horizontal applications will require tooling. In areas of prolonged chemical exposure contact Technical Services for recommendations. Do not allow uncured material to come into contact with uncured silicone sealants. Allow treated wood to "cure" for six months prior to application per APA guidelines. Do not store in elevated temperatures.

Read and ensure that the most up-to-date MSDS and technical guidelines are being followed. Proper use and application are the responsibility of the applicator. Direct any questions to Technical Services at 800-826-1681 prior to starting the project.
