

# Expansion Joint Covers

Technical Product Information

## Galvanized Straight Flange

### SPECIFICATION

Furnish and install expansion joint covers as manufactured by Portals Plus Inc.

The expansion joint covers shall be factory manufactured of 3-ply, reinforced Hypalon bellow with laminated closed-cell foam backing. Bellow shall be factory double-locked to straight galvanized steel flanges along the two long edges. All fittings and accessories (corners, tees, closures, etc.) shall be manufactured by Portals Plus, Inc. to suit the project conditions. Install all units in the longest continuous lengths possible. All splices must be completed using Portals Plus standard splice kits. Installation and attachment of the expansion joint covers shall be in accordance with Portals Plus' instructions and the roofing membrane manufacturer's recommendations.
